PROFORUM

Using Technology for Velocity:
The Evolution of Artificial Intelligence
within Procurement

HOSTED BY

Dupre Jones

Toshiba

Dupre Jones is Manager for Global Logistics Procurement and Operations at Toshiba Global Commerce Solutions in Durham, NC. At TGCS, he and his team ensure seamless delivery of components to the Point of Sale (POS) and Self-Checkout (SCO) manufacturing lines as well as timely delivery of these products to customers in retail industry. He has extensive experience delivering cost savings via contract negotiation, total cost of ownership and business process engineering for Global 100 companies in over 20 countries. In the area of supply chain, his achievements include sourcing, operations and vendor management projects in road freight, 3PL warehousing/fulfillment, reverse logistics, ocean / air freight, contingent labor / consulting, and spend analytics solutions.

Dupre holds distinctions as a Certified Professional in Supply Management (CPSM), Six Sigma Green Belt along with certifications in project management, ITIL, IT vendor management and Lean. He holds an MBA in Global Management from Thunderbird School of Global Management and BA in International Affairs from the George Washington University. In his spare time, Dupre stays active in the community through ISM's Triangle Chapter, at the dog park with his dog Savannah and working out with trainers from Camp Gladiator.
