PROFORUM

Using Technology for Velocity:
The Evolution of Artificial Intelligence
within Procurement

HOSTED BY

Matt Kapadia

IBM

Matt is the Client Solutions Lead for the Procurement Transformation & Operations organization. Within this role Matt has responsibility for delivery of all go-to-market procurement transformation and technology solutions. This portfolio of solutions includes Cognitive, Analytics, Blockchain and Robotic Process Automation amongst others.

Prior to this role Matt led our procurement analytics practice for several years as well as being the IBM Procurement Services lead for source to contract solutions. Managing engagements ranging from core platform implementations to cognitive solution development for both IBM and IBM clients. Matt is recognized as a thought leader and innovator within the procurement space inside IBM and with the IBM clients he has worked with during his time with the company.

Prior to coming to IBM Matt led master data management and supply chain transformation projects at both Biogen and Pfizer.

Matt graduated from North Carolina State University and resides in Apex, North Carolina.
